

6-7 NUISANCES PROHIBITED

No yard or other space shall be used for the storage of trash, debris, junk, obsolete vehicles or other material or objects which create a public nuisance; and no land shall be used for such purpose, except as specifically permitted herein. Persons desiring to store old vehicles for parts or restoration must do so in a manner which will not contaminate the soil and which will assure that they are not visible from the nearest road or highway and from dwellings in the neighborhood.
